What should I do to submit a proposal?

Individual:	The presentations in LASA2019, are sessions. Therefore, it is better if you find colleagues who present papers with the same topic and build a panel, otherwise the track chairs will decide how to group together the different individual proposal based on similar themes. If you are interested in finding similar papers, check if others in your field are submitting individual proposals: http://lasa.international.pitt.edu/auth/prot/papermatch/ . You can also upload your information in order to be found by other colleagues. If you still want to submit as an individual, you will need: 1- Paper title (no longer than 25 words and with mixed case) such as: "Let's all be happy". 2- Paper abstract (no longer than 250 words). 3- Your co-author's last name (and first name) as it appears in LASA's records. You can search for individuals here: http://lasa.international.pitt.edu/auth/prot/mdsearch/ (If not sure, search partial last names such as "Hernan" for Hernández). *Make sure the correct person is selected. Confirm their affiliation.*
